JUSTIFICATION FOR REAL WORLD TESTING APPROACH

Having access to stored data, we will be monitoring over time the specified metrics for each applicable measure via database queries. This will allow us to easily confirm utilization as well as see trends over time for the measures for different care settings.

STANDARDS UPDATES (INCLUDING STANDARDS VERSION ADVANCEMENT PROCESS-SVAP AND USCDI)

No updates concerning this measure for Systemedx Clinical Navigator version 2019.10

MEASURES USED IN OVERALL APPROACH

DESCRIPTION OF MEASUREMENT/METRIC

The counts of instances that a data export is performed in each care setting.

ASSOCIATED CERTIFICATION CRITERIA

170.315(b)(6) – Data Export

JUSTIFICATION FOR SELECTED MEASUREMENT/METRIC

This is a tool that we are seeing is not widely used across our userbase. This metric gives a way to see what settings of care are utilizing vs not at all.

Real World Testing 2022

170.315(b)(6) – Data Export

CARE SETTING(S)

List each care setting which is covered by the measure and an explanation for why it is included.

Care Setting	Justification
Ambulatory Internal/Family Medicine	All care settings have access to utilize this functionality.
Ambulatory Orthopedics	All care settings have access to utilize this functionality.
Ambulatory Allergy Clinics	All care settings have access to utilize this functionality.

EXPECTED OUTCOMES

The expected outcome for this measure is that there will be little to no active utilization of this functionality as there are few clinics in active engagement with data repositories that would require such info.

The methodology and ability to perform actions related to data export should be present and uniform across all care settings.

The results of the metrics provided should demonstrate this over time.

SCHEDULE OF KEY MILESTONES

Key Milestone	Care Setting	Date/Timeframe
First Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	Jan - March
Second Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	March - June

Real World Testing 2022

170.315(b)(6) – Data Export

Third Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	July - Sept
Fourth Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	Oct - Dec

ATTESTATION

The Real World Testing plan must include the following attestation signed by the Health IT Developer Authorized representative.

Note: The plan must be approved by a Health IT Developer authorized representative capable of binding the Health IT Developer for execution of the plan and include the representative's contact information.ⁱ

This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the Health IT Developer's Real World Testing requirements.
